

Math Wizard Wonders

Mrs. Mathews is looking for 4th, 5th, & 6th grade students who are whizzes at math facts!

Why?

Students, who know their facts and can answer QUICKLY, do better work in math. They feel good about their math class, math skills & themselves. They are more apt to succeed in middle school, high school, college, and real life.

Taft Math Wizard **Wonders** will be students who pass a 100 fact 5 minute timed test in each of the following:
addition, subtraction, multiplication, division, and mixed facts.

Mrs. Mathews will administer tests when classroom teachers determine the student is ready for the test. Mrs. Mathews' tests will only be administered monthly.

(This year it may be more often since we're starting later in the year.)

Once students pass each 5 minute timed test, they will be pictured on the Math Wizard **Wonder** Wall of Fame. Everyone will know they have succeeded in mastering their basic facts.

Please ENCOURAGE, DRILL, & SUPPORT your child in this effort!!!
